Thanks, Thanne. We'll be in touch with what we have. Have a good weekend.

Nico

Nico:

I have left a message with Abhik inquiring about timeframes to get you the publicly available documents we collected regarding facilities in the slough area. I will let you know as soon as I hear back from him.

I believe there were a couple of items you, or someone else in the room, mentioned that the PRPs might be able to provide. According to our notes you mentioned: photographic evidence linking releases from Bayview Auto Dismantlers to the Slough and evidence of Bauer-Cooperage operating as a drum recycler at the RWD property. Of course, we would be interested in any other information which you think would be helpful concerning the parties on your list. I understand that it is difficult to know what we have until you see it, but I wanted to put that request out there.

Have a good weekend
